Subject index*

A

Adenine nucleotides, effects of, on contractility of normal and postischemic myocardium (Shah et al.), 740
Adrenaline-induced lignocaine-resistant dysrhythmias in experimental myocardial infarction (Allen et al.), 21
Aged, electrocardiographic findings in (Mihalick and Fisch), 117
Agents, beta-blocking, study of antiarrhythmic action of certain (Kelliher and Roberts), 458
  toxic, cardiovascular disease, and polluted home (Burch), 679
Alcohol, cardiotoxicity of (Alexander and Nagasawa), 805 (Letter to the Editor)
  Reply (Wong), 805
Alcoholic patients, chronic, cardiac dysfunction in unselected, noninvasive screening by systolic time intervals (Zambrano et al.), 318
Alternans, u-wave, an electrocardiographic sign of left ventricular failure (Eyer), 41
Amputee, blood-flow indices in, and control limbs by mutual electrical impedance plethysmography (Nyboer, Murray, and Sedensky), 704
Anaerobiosis induced by isoproterenol and glucagon in presence of restricted coronary inflow (Shaver, Lombardo, and Shaver), 97
Anesthesia for cardiac patient (Elliott), 134
  general, and myocardial infarction (Tarhan and Giuliani), 137
Aneurysm, left atrial, intrapericardial, report of case and review of literature (Hansen, Rygg, and Efsen), 113
Aneurysmectomy for recurrent ventricular tachyarrhythmias (Neufeld, Schlesinger, and Lieberman), 536 (Letter to Editor)
Angina, Prinzmetal's variant, clinical and electrocardiographic study (Bodenheimer), 304
  variant form of, diagnostic and therapeutic implications (Betriu et al.), 272
Angiography, coronary, interpretation of serum enzyme changes following cardiac catheterization and (Chahine et al.), 170
Announcements, 406, 678, 812
Antiarrhythmic action of certain beta-blocking agents, study of, 458 (Kelliher and Roberts)
  drug action, selective depression of hypoxic cardiac cells (Hondeghem, Grant, and Jensen), 602
  comparative mechanisms of action of (Singh and Hauswirth), 367
Antigen, Australian, Blumberg's (D'Amato), 798 (Annotation)
Anxiety and hypertension (Vlachakis), 518
Aortic arch, right, significance of, in D-transposition of great arteries (Mathew, Rosenthal, and Fellows), 314
Aortic—Cont'd
  insufficiency, ventricular septal defect associated with, medical and surgical management (Chung and Manning), 435
Aorticopulmonary shunting, acute, in anesthetized dogs, subendocardial (Fixler, Saunders, and Sugg), 483
Aortocoronary saphenous vein bypass function, assessment of, utilizing selective indicator dilution curves (Benchimol, Desser, and Schumacher), 350
  surgery, incidence and clinical significance of ECG-VCG changes of myocardial infarction following (Schrank, Slabaugh, and Beckwith), 46
Arrhythmias, cardioversion by precordial thumping in asystole and ventricular (Pierson), 403 (Letter to Editor)
  diagnosis of transient (Benaim), 531 (Annotation)
  induced by exercise in paced patients (Parsonnet et al.), 76
Arterial disease, cause of (Stanton), 796 (Annotation)
  pulse waves and velocity and systolic time intervals in diabetic children (Pillsbury et al.), 783
  thrombosis after cardiac catheterization in children, attempts to reduce, use of percutaneous technique and aspirin (Freed, Rosenthal, and Fyler), 283
Arteries, great, significance of right aortic arch in D-transposition of (Mathew, Rosenthal, and Fellows), 314
  great, what is transposition of (Shaher), 541
Arteriograms, normal coronary, electrocardiographic changes during hyperventilation resembling myocardial ischemia in patients with (Lary and Goldschlager), 383
  hemodynamic response to supine exercise in patients with chest pain and (Bamrah, Bahler, and Rakita), 147
Arteriographic and clinical review of 40 cases aged 35 and under, coronary artery disease in young patients (Davia et al.), 689
Arteriography, coronary, selective, during permanent ventricular tachycardia (Haïat et al.), 800
Arteriosclerosis, viruses and (Burch), 407
Artery bypass surgery, vectorcardiographic changes following coronary (Anderson, Brundage, and Cheitlin), 421
  coronary, calcification, clinical implications and angiographic correlates (Hamby et al.), 565
  disease, right coronary, latent defects of atrioventricular conduction in (de Soyza, et al.), 164
Aspartate transaminase isoenzymes during experimental myocardial infarction, immunological identification in plasma of mitochondrial and cytoplasmic (Calva et al.), 614

*January, pp. 1-142; February, pp. 143-266; March, pp. 267-406; April, pp. 407-540; May, pp. 541-678; June, pp. 679-828

Atherosclerosis, coronary, and myocardial infarction associated with systemic lupus erythematosus (Tsakraklides, Blieden, and Edwards), 637
thrombosis, and endothelium (Spaet, Gaynor, and Stemerman), 661
Aspirin, attempts to reduce arterial thrombosis after cardiac catheterization in children, use of percutaneous technique and (Freed, Rosenthal, and Fyler), 283
Ataxia, Friedreich's, vectorcardiogram in (Gregorini, Valentini, and Libretti), 158
Atresia, mitral, overriding right atrioventricular valve in association with (Rosenquist), 26
Atrial activity, abnormal, in lipomatous hypertrophy of interatrial septum (Erhardt), 571
impulses, partial penetration of, into His bundle, observations during clinical 2:1 and 3:1 A-V block below the A-V node, evidence of (Oliva), 223
junctions, congenital obstruction of pulmonary veins at (Mortensson and Lundström), 359
pacemaker, refractory paroxysmal supraventricular tachycardia, treatment with patient controlled permanent radio frequency (Fruehan), 229
rhythms, ectopic, in primate (Klein et al.), 750
-septal defects of secundum type from simple and combined vectorcardiographic data, predicition of hemodynamic data in (Rasmussen), 413
Atrioventricular block, experimental, in course of hypocalcic electromechanical dissociation, electrocardiographic and histological data (Dorra et al.), 190
conducting system in man, electrophysiological effects of intramuscular quinidine on (Josephson et al.), 55
in right coronary artery disease, latent defects of (de Soyza, et al.), 164
Australian antigen, Blumberg's (D'Amato), 798 (Annotation)
A-V block, observations during clinical 2:1 and 3:1, below the A-V node, evidence of partial penetration of atrial impulses into the His bundle (Oliva), 223

B

Beats, ventricular premature, on idioventricular pacemaker activity, effects of (Goel, Han, and Rogers), 183
Beta-blocking agents, study of antiarrhythmic action of certain (Kelliher and Roberts), 458
Biopsy, transvenous endomyocardial, using the gastrointestinal biopsy (Olympus GFB) catheter (Ali), 294
Block, experimental atrioventricular, in course of hypocalcic electromechanical dissociation, electrocardiographic and histological data (Dorra et al.), 190
sinoatrial, first-degree, in man, simple, rapid method for diagnosis of (Bigger), 731
Blood-flow indices in amputee and control limbs by mutual electrical impedance plethysmography (Nyboer, Murray, and Sedensky), 704
pressure, effect of smoking on (Seltzer), 558
volume expansion, and cardiopulmonary volumes, in experimental acute myocardial infarction with and without shock (Weisse et al.), 88
Blumberg's Australian antigen (D'Amato), 798 (Annotation)
Body weight, plasma uric acid and (Scott and Nicholls), 672 (Annotation)
Books received, 677, 811
Book reviews, 266, 404, 549, 676, 810
Bradykinin, measurement of (Bonilla), 537 (Letter to the Editor)
Reply (Kimura and Hashimoto), 538
Bundle branch block, left, effects of, on ECG patterns (Flowers) 264 (Letter to Editor)
Reply (Luy), 265
right, with left anterior hemiblock when associated with type B pre-excitation syndrome, disappearance of, 497 (Sobrino et al.)
Bypass function, assessment of aortocoronary saphenous vein, utilizing selective indicator dilution curves (Benchimol, Desser, and Schumacher), 350
graft, coronary artery, in community hospital, experience with (Shors), 403 (Letter to editor)
Reply (Karnegis), 403
Bypass—Cont'd
saphenous vein graft, for impending infarction, preinfarction syndrome, propranolol vs. (Master and Jaffe), 321

C

Calcification, coronary artery, clinical implications and angiographic correlates (Hamby et al.), 565
Cannabis, cardiovascular aspects of (Beaconsfield), 143
Papillary muscles, localized ventricular gradient of (Burch and Cronvich), 327
Cardiac catheterization and coronary angiography, interpretation of serum enzyme changes following (Chahine et al.), 170
in children, attempts to reduce arterial thrombosis after, use of percutaneous technique and aspirin (Freed, Rosenthal, and Fyler), 283
in children, use of droperidol-fentanyl sedation for (Graham, Atwood, and Werner), 287
cells, hypoxic, antiarrhythmic drug action, selective depression of (Hondeghem, Grant, and Jensen), 602
disease, absence of, prevalence of fourth heart sound by phonocardiography in (Spodick and Quarry), 11
contralateral effects of, affecting primarily either left or right chambers of heart (Weisse), 654
dysfunction in unselected chronic alcoholic patients, noninvasive screening by systolic time intervals (Zambrano et al.), 318
dysrhythmias induced by mesencephalic stimulation, effect of acute hypoxia on (Mauck et al.), 197
muscle fiber size in African cardiomyopathies (McKinney), 298
output, depression of, by sedation in congenital semilunar valve stenosis (Hawker and Krovetz), 138 (Annotation)
venous and lymph flow obstruction in dog, myocardial pathology after (Pick, Miller, and Glick), 627
Cardiogram, phase-plane, preliminary findings on healthy population (Colton et al.), 619
Cardiomyopathies, African, cardiac muscle fiber size in (McKinney), 298
Cardiopulmonary volumes and blood volume expansion in experimental acute myocardial infarction with and without shock (Weisse et al.), 88
Cardiovascular aspects of cannabis (Beaconsfield), 143
disease and polluted home, toxic agents (Burch), 679
smoking and, effect of nicotine on serum epinephrine and corticoids (Hill and Wynder), 491
Cardioversion by precordial thumping in asystole and ventricular arrhythmias (Pierson), 403 (Letter to editor)
Catecholamines, physiologic basis for therapeutic use of (Rosenblum), 527
Catheter, Olympus GFB, transvenous endomyocardial biopsy using the gastrointestinal biopsy (Ali), 294
Catheterization, cardiac, and coronary angiography, interpretation of serum enzyme changes following (Chahine et al.), 170
in children, attempts to reduce arterial thrombosis after, use of percutaneous technique and aspirin (Freed, Rosenthal, and Fyler), 283
use of droperidol-fentanyl sedation for (Graham, Atwood, and Werner), 287
Central venous pressure, estimation of, by examination of jugular veins (Davison and Cannon), 279
Chest pain and normal coronary arteriograms, hemodynamic response to supine exercise in patients with (Bamrah, Bahler, and Rakita), 147
Chlorambucil, in treatment of systemic lupus erythematosus (Snaith and Holt), 533
Clinical pathologic conference. (Marin-Garcia et al.), 238 (Stone et al.), 511
(Voigt and Wright), 773 Cyanotic congenital heart disease and sudden death
Clofibrate, value of, in coronary heart disease (Gillam), 1

Conducting system, atrioventricular, in man, electrophysiological effects of intramuscular quinidine on (Josephson et al.), 55
Conduction system, myocardial, iatrogenic interruption of (Valdes-Dapena, Greene, and Truex), 765
Congenital heart disease, cyanotic, and sudden death (Voigt and Wright), 773
Contraceptives, oral, thromboembolism and (Nefzger), 536 (Letter to Editor)
Reply (Hougie), 537
Controlling, should we always keep (Nelemans) 532 (Annotation)
Controls, of (Burch), 259 (Annotation)
Coronary angiography, interpretation of serum enzyme changes following cardiac catheterization and (Chahine et al.), 170
arteriograms, normal, hemodynamic response to supine exercise in patients with chest pain and (Bamrah, Bahler, and Rakita), 147
arteriography, selective, during permanent ventricular tachycardia (Haïat et al.), 800
artery, circumflex, congenital absence of (Page and Engel), 804 (Letter to the Editor)
Reply, Susmano, 804
bypass graft in community hospital, experience with (Shors), 403 (Letter to Editor)
Reply (Karnegis), 403
surgery, vectorcardiographic changes following (Anderson, Brundage, and Cheitlin), 421
calcification, clinical implications and angiographic correlates (Hamby et al.), 565
disease, clinical and hemodynamic evaluation of coronary collateral vessels in (Lavine), 343
in young patients, arteriographic and clinical review of 40 cases aged 35 and under (Davia et al.), 689
right, latent defects of atrioventricular conduction in (de Soyza, et al.), 164
occlusion and acute myocardial infarction, cause-effect relationship between recent (Chapman), 267
and blood lipids (Barboriak et al.), 716
collateral vessels, clinical and hemodynamic evaluation of, in coronary artery disease, (Lavine et al.), 343
heart disease among young army males of World War II, epidemiology of, (Hrubec and Zukel), 722
value of clofibrate in (Gillam), 1
inflow, restricted, anaerobiosis induced by isoproterenol and glucagon in presence of (Shaver, Lombardo, and Shaver), 97
resistance, effects of diphenylhydantoin on, and myocardial contractile force before and after ouabain (Doster and Scott), 761
sinus pacemaker, pacemaker pseudodysfunction with (Bowman and Carter), 507
thrombosis, morphology of acute myocardial infarction in relation to (Baroldi et al.), 65
Corticoids, effect of nicotine on serum epinephrine and, smoking and cardiovascular disease (Hill and Wynder), 491
Curve, oxyhemoglobin dissociation, in hypercapnic patients (Agostoni et al.), 670 (Annotation)
Curves, indicator dilution, selective, assessment of aortocoronary saphenous vein bypass function utilizing (Benchimol, Desser, and Schumacher), 350

D

Death, sudden, cyanotic congenital heart disease and (Voigt and Wright), 773
Defects, atrial septal, of secundum type from simple and combined vectorcardiographic data, prediction of hemodynamic data in (Rasmussen), 413
ventricular septal, associated with aortic insufficiency, medical and surgical management (Chung and Manning), 435
Devil's grip, the (Cotterill), 538
Diazoxide, an effective vasodilator in accelerated hypertension (Moser), 791
Diet, to, or not to diet, and what diet (Bierenbaum), 401 (Annotation)
Digitalis glycosides, current concepts of therapy with, part I (Schick and Scheuer), 253
Part II (Schick and Scheuer), 391
toxicity, effect of different types of anesthesia on (Stickney), 734
Digoxin, clinical problems associated with variable biologic availability of (Shaw), 399 (Annotation)
Dilantin, continuous administration of (Copple and Cluxton), 807 (Letter to the Editor)
Reply (Rutkowski), 807
Dilution curves, indicator, assessment of aortocoronary saphenous vein bypass function utilizing selective (Benchimol, Desser, and Schumacher), 350
Diphenylhydantoin, effects of, on coronary resistance and myocardial contractile force before and after ouabain (Doster and Scott), 761
Disease, cardiovascular, and smoking, effect of nicotine on serum epinephrine and corticoids (Hill and Wynder), 491
Dissociation, hypocalcic electromechanical, electrocardiographic and histological data, experimental atrioventricular block in the course of (Dorra et al.), 190
Diverticulum, congenital, of left ventricle (Galioto et al.), 109
Doctor, of one (Burch), 397 (Annotation)
Dogs, anesthetized, subendocardial underperfusion during acute aorticopulmonary shunting in (Fixler, Saunders, and Sugg), 483
electrocardiogram, effect of acute pulmonary artery obstruction on (Rasmussen and Michelsen), 209
myocardial pathology after cardiac venous and lymph flow obstruction in (Pick, Miller, and Glick), 627
Dopamine, dose-related hemodynamic and renal effects of, in congestive heart failure (Beregovich et al.), 550
Droperidol-fentanyl sedation, use of, for cardiac catheterization in children (Graham, Atwood, and Werner), 287
Drug action, antiarrhythmic, selective depression of hypoxic cardiac cells (Hondeghem, Grant, and Jensen), 602
antiarrhythmic, comparative mechanisms of action of (Singh and Hauswirth), 367
D-transposition of great arteries, significance of right aortic arch in (Mathew, Rosenthal, and Fellows), 314
Dysfunction, cardiac, in unselected chronic alcoholic patients, noninvasive screening by systolic time intervals (Zambrano et al.), 318
Dysrhythmias, adrenaline-induced, lignocaine-resistant, in experimental myocardial infarction (Allen et al.), 21
cardiac, induced by mesencephalic stimulation, effect of acute hypoxia on (Mauck et al.), 197

E

ECG-VCG changes of myocardial infarction following aortocoronary saphenous vein bypass surgery, incidence and clinical significance of (Schrank, Slabaugh, and Beckwith), 46
Echocardiographic interventricular septal wall motion and thickness, a study in health and disease (Sawaya, Longo, and Schlant), 681
Ectopic atrial rhythms in primate (Klein et al.), 750
Edema (dilution syndrome), renal function studies in hyponatremic cardiac patients with (Nitter-Hauge, Brodwall, and Rootwelt), 33
Electrocardiographic analysis, effects of various agents on regional ischemic myocardial injury (Wendt, Canavan, and Michalak), 468
Electrodes, transvenous pacemaker, innominate venous thrombosis, rare complication of (Sethi, Bhayana, and Scott), 770
Electronic equipment, medical, physicians and, critical review of modus operandi (Rios and Shaffer), 397 (Annotation)

Emboli, pulmonary, associated with transvenous pacemaker (Edelstein), 808 (Letter to Editor)
Emetine myocardial toxicity, correlation of metabolic and ultrastructural changes in (Murphy, Bulloch, and Pearce), 105
Emphysema, pulmonary, electrocardiographic changes in, effects of experimentally induced over-inflation of lungs on QRS complexes (Toyama et al.), 606
Endocardial cushion defect, tricuspid pouch in (Kudo et al.), 544
Endocarditis, penicillium, following open-heart surgery and prosthetic valve insertion (Hall), 501
Endomyocardial biopsy, transvenous, using the gastrointestinal biopsy (Olympus GFB) catheter (Ali), 294
Endothelium, atherosclerosis, and thrombosis (Spaet, Gaynor, and Stemerman), 661
Enzyme, serum, changes following cardiac catheterization and coronary angiography, interpretation of (Chahine et al.), 170
Epinephrine, serum, and corticoids, smoking and cardiovascular disease, effect of nicotine on (Hill and Wynder), 491
Erythematosus, lupus, systemic, chlorambucil in treatment of (Snaith and Holt), 533 (Annotation)
Exercise, p-wave changes on, in patients with isolated mitral stenosis (Yokoyama et al.), 15
  submaximal and maximal, in man, systolic time intervals during (Maher et al.), 334
  supine, in patients with chest pain and normal coronary arteriograms, hemodynamic response to (Bamrah, Bahler, and Rakita), 147
  test as diagnostic and therapeutic aid (Rosing, Reichek, and Perloff), 584
  testing, 12-lead patient cable for electrocardiographic (Grais, Campbell, and Adolph), 203
  treadmill protocol, prediction of maximal oxygen consumption from continuous (Froelicher and Lancaster), 445

F

Fever, significance of, in acute myocardial infarction, reappraisal (Gibson), 439
Force, myocardial contractile, before and after ouabain, effects of diphenylhydantoin on coronary resistance and (Doster and Scott), 761
Friedreich's ataxia, vectorcardiogram in (Gregorini, Valentini, and Libretti), 158
Fusion beats demonstrated by MAP suction electrode technique (Cotoi and Dragulescu), 260 (Annotation)

G

Glucagon and isoproterenol in presence of restricted coronary inflow, anaerobiosis induced by (Shaver, Lombardo, and Shaver), 97
Glycosides, digitalis, current concepts of therapy with, part I (Schick and Scheuer), 253
  , Part II (Schick and Scheuer), 391
Gradient, localized ventricular, of papillary muscles (Burch and Cronvich), 327

H

Heart disease, congenital, cyanotic, and sudden death (Voigt and Wright), 773
  coronary, value of clofibrate in (Gillam), 1
  failure, congestive, dose-related hemodynamic and renal effects of dopamine in (Beregovich, et al.), 550
  sound, fourth, prevalence of, by phonocardiography in absence of cardiac disease (Spodick and Quarry), 11
Hematocrit variations in myocardial ischemia, potential significance of plasma viscosity and (Gordon et al.), 175
Hemiblock, left anterior, disappearance of right bundle branch block with, when associated with type B pre-excitation syndrome (Sobrino et al.), 497
Hemodynamic and renal effects, dose-related, of dopamine in congestive heart failure (Beregovich et al.), 550
Hemodynamic—Cont'd
  data in artrial-septal defects of secundum type from simple and combined vectorcardiographic data, prediction of (Rasmussen), 413
  response to supine exercise in patients with chest pain and normal coronary arteriograms (Bamrah, Bahler, and Rakita), 147
Heparin and platelets (Eika), 142 (Letter to Editor)
  Reply (O'Brien), 142
  small doses of subcutaneous, in preventing postoperative deep venous thrombosis (Nicolaides et al.), 261 (Annotation)
His bundle, observations during clinical 2:3 and 3:1 A-V block below the A-V node, evidence of partial penetration of atrial impulses into the (Oliva), 223
Home, polluted, toxic agents, cardiovascular disease (Burch), 679
Hypertension and anxiety (Vlachakis), 518
  diazoxide, effective vasodilator in accelerated, 791 (Moser)
Hypertrophy, lipomatous, of interatrial septum, abnormal atrial activity in (Erhardt), 571
Hyperventilation, electrocardiographic changes during, resembling myocardial ischemia in patients with normal coronary arteriograms (Lary and Goldschlager), 383
Hyponatremic cardiac patients with edema (dilution syndrome), renal function studies in, (Nitter-Hauge, Brodwall, and Rootwelt), 33
Hypoxia, acute, on cardiac dysrhythmias induced by mesencephalic stimulation, effect of (Mauck et al.), 197

I

Idioventricular pacemaker activity, effect of ventricular premature beats on (Goel, Han, and Rogers), 183
Impulses, atrial, partial penetration of, into His bundle, observations during clinical 2:1 and 3:1 A-V block below the A-V node, evidence of (Oliva), 223
Indicator dilution curves, assessment of aortocoronary saphenous vein bypass function utilizing (Benchimol, Desser, and Schumacher), 350
Infarction, acute myocardial, experimental, with and without shock, cardiopulmonary volumes and blood volume expansion in (Weisse et al.), 88
  impending, preinfarction syndrome, propranolol vs. saphenous vein graft bypass for (Master and Jaffe), 321
  myocardial, acute, cause-effect relationship between recent coronary artery occlusion and (Chapman), 267
    in man, effect of sinus tachycardia on phases of left ventricular systole during (Talano and Ronan), 428
    morphology of, in relation to coronary thrombosis (Baroldi et al.), 65
    pericarditis complicating, incidence of complications and significance of electrocardiogram on admission (Lichstein, Liu, and Gupta), 246
    significance of fever in, reappraisal (Gibson), 439
  adrenaline-induced lignocaine-resistant, dysrhythmias in experimental (Allen et al.), 21
  coronary atherosclerosis and, associated with systemic lupus erythematosus (Tsakraklides, Blieden, and Edwards), 637
  following aortocoronary saphenous vein bypass surgery, incidence and clinical significance of ECG-VCG changes of (Schrank, Slabaugh, and Beckwith), 46
  general anesthesia and (Tarhan and Giuliani), 137 (Annotation)
  immunological identification in plasma of mitochondrial and cytoplasmic aspartate transaminase isoenzymes during experimental (Calva et al.), 614
  manifestation of Wolff-Parkinson-White syndrome after (Goel and Han), 633
  systolic murmur following (Dugall and Blount), 577
Infusion, continuous, use of lidocaine by (Bassan et al.), 302

Injury, myocardial, effects of various agents on regional ischemic, electrocardiographic analysis (Wendt, Canavan, and Michalak), 468
Insertion, prosthetic valve, penicillium endocarditis following open heart surgery and (Hall), 501
Interference, electrical, experimental response curves, means of predicting pacemaker response to (Bonney and Rustan), 757
Intervals, systolic time, during submaximal and maximal exercise in man (Maher), 334
systolic time, noninvasive screening by, cardiac dysfunction in unselected chronic alcoholic patients (Zambrano et al.), 318
Intrapericardial left atrial aneurysm, report of case and review of literature (Hansen, Rygg, and Efsen), 113
Ischemia, myocardial, electrocardiographic changes during hyperventilation resembling, in patients with normal coronary arteriograms (Lary and Goldschlager), 383
potential significance of plasma viscosity and hematocrit variations in (Gordon et al.), 175
Ischemic myocardial injury, effects of various agents on regional, electrocardiographic analysis (Wendt, Canavan, and Michalak), 468
Isoenzymes, aspartate trasaminase, during experimental myocardial infarction, immunological identification in plasma of mitochondrial and cytoplasmic (Calva et al.), 614
Isoproterenol and glucagon in presence of restricted coronary inflow, anaerobiosis induced by (Shaver, Lombardo, and Shaver), 97
evaluation of, as method of stress testing (Combs and Martin), 711
Isovolumic relaxation, alternating, systolic and diastolic time intervals in pulsus alternans, significance of (Spodick, Khan, and Quarry), 5,

J

Jugular veins, estimation of central venous pressure by examination of (Davison and Cannon), 279

L

Lipids, blood, coronary artery occlusion and (Barboriak), 716
Lignocaine-resistant, adrenaline-induced, dysrhythmias in experimental myocardial infarction (Allen et al.), 21
Lidocaine, use of, by continuous infusion (Bassan et al.), 302
Lungs, over-inflation of, on QRS complexes, electrocardiographic changes in pulmonary emphysema, effects of experimentally induced (Toyama et al.), 606
Lupus erythematosus, systemic, chlorambucil in treatment of (Snaith and Holt), 533 (Annotation)
coronary atherosclerosis and myocardial infarction associated with (Tsakraklides, Blieden, and Edwards), 637

M

MAP suction electrode technique, fusion beats demonstrated by (Cotoi and Dragulescu), 260 (Annotation)
Master Two-Step test, fastest rate attained in (Master), 139 (Annotation)
Maximal and submaximal exercise in man, systolic time intervals during (Maher), 334
Medicine, cruelties in practice of (Burch), 800 (Annotation)
Mesencephalic stimulation, effect of acute hypoxia on cardiac dysrhythmias induced by (Mauck et al.), 197
Mitral atresia, overriding right atrioventricular valve in association with (Rosenquist), 26
stenosis, p-wave changes on exercise in patients with isolated (Yokayama et al.), 15
Motion, interventricular septal wall, and thickness, a study in health and disease, echocardiographic (Sawaya, Longo, and Schlant), 681
Murmur, systolic, following myocardial infarction (Dugall and Blount), 577
Muscle fiber size, cardiac, in African cardiomyopathies (McKinney), 298
papillary, localized ventricular gradient of (Burch and Cronvich), 327
Myocardial conduction system, iatrogenic interruption of (Valdes-Dapena, Greene, and Truex), 765
contractile force before and after ouabain, effects of diphenylhydantoin on coronary resistance and (Doster and Scott), 761
infarction, acute, cause-effect relationship between recent coronary artery occlusion and (Chapman), 267
in man, effect of sinus tachycardia on phases of left ventricular systole during, (Talano and Ronan), 428
morphology of, in relation to coronary thrombosis (Baroldi et al.), 65
pericarditis complicating, incidence of complications and significance of electrocardiogram on admission (Lichstein, Liu, and Gupta), 246
significance of fever in, reappraisal (Gibson), 439
adrenaline-induced lignocaine-resistant dysrhythmias in experimental (Allen et al.), 21
coronary atherosclerosis and, associated with systemic lupus erythematosus (Tsakraklides, Blieden, and Edwards), 637
experimental acute, with and without shock, cardiopulmonary volumes and blood volume expansion in experimental (Weisse et al.), 88
following aortocoronary saphenous vein bypass surgery, incidence and clinical significance of ECG-VCG changes of (Schrank, Slabaugh, and Beckwith), 46
general anesthesia and (Tarhan and Giuliani), 137 (Annotation)
immunological identification in plasma of mitochondrial and cytoplasmic aspartate transaminase isoenzymes during experimental (Calva et al.), 614
manifestation of Wolff-Parkinson-White syndrome after (Goel and Han), 633
systolic murmur following (Dugall and Blount), 577
injury, ischemic, effects of various agents on regional, elec injury, ischemic, effects of various agents on regional, electrocardiographic analysis (Wendt, Canavan, and Michalak), 468
ischemia, electrocardiographic changes during hyperventilation resembling, in patients with normal coronary arteriograms (Lary and Goldschlager), 383
potential significance of plasma viscosity and hematocrit variations in (Gordon et al.), 175
pathology after cardiac venous and lymph flow obstruction in dog (Pick, Miller, and Glick), 627
toxicity, emetine, correlation of metabolic and ultrastructural changes in (Murphy, Bulloch, and Pearce), 105
Myocardium, postischemic, effects of adenine nucleotides on contractility of normal and (Shah et al.), 740

N

Neonate, incidence and treatment of patent ductus arteriosus in ill premature (Zachman et al.), 697
Nephritis, of viral (Burch), 139 (Annotation)
Nicotine, effect of, on serum epinephrine and corticoids, smoking and cardiovascular disease (Hill and Wynder), 491
Nitroprusside, sodium, systemic and coronary hemodynamic effects of (Rowe and Henderson), 83
Node, A-V, observations during clinical 2:1 and 3:1 A-V block below, evidence of partial penetration of atrial impulses into the His bundle (Oliva), 223
Nucleotides, adenine, effects of, on contractility of normal and postischemic myocardium (Shah et al.), 740

O

Occlusion, coronary artery, and acute myocardial infarction, cause-effect relationship between recent (Chapman), 267
blood lipids (Barboriak et al.), 716

Olympus GFB catheter, transvenous endomyocardial biopsy using the gastrointestinal biopsy (Ali), 294
Open-heart surgery and prosthetic valve insertion, penicillium endocarditis following (Hall), 501
Oral contraceptives, thromboembolism and (Nefzger), 536 (Letter to Editor)
Reply (Hougie), 537
Ouabain, effects of diphenylhydantoin on coronary resistance and myocardial contractile force before and after (Doster and Scott), 761
Oxygen consumption, prediction of maximal, from continuous exercise treadmill protocol (Froelicher and Lancaster), 445
Oxyhemoglobin dissociation curve in hypercapnic patients (Agostoni et al.), 670 (Annotation)

P

Pacemaker activity, idioventricular, effect of ventricular premature beats on (Goel, Han, and Rogers), 183
atrial, refractory paroxysmal supraventricular tachycardia, treatment with patient controlled permanent radio frequency (Fruehan), 229
coronary sinus, pacemaker pseudodysfunction with (Bowman and Carter), 507
electrodes, transvenous, innominate venous thrombosis, rare complication of (Sethi, Bhayana, and Scott), 770
follow-up of (Parsonnet et al.), 642
pseudodysfunction with coronary sinus pacemaker (Bowman and Carter), 507
response to electrical interference, experimental response curves, means of predicting (Bonney and Rustan), 757
Papillary muscle dysfunction, observations on (Gould et al.), 674 (Annotation)
Patent ductus arteriosus, incidence and treatment of, in ill premature neonate (Zachman et al.), 697
Penicillium endocarditis following open-heart surgery and prosthetic valve insertion (Hall), 501
Percutaneous technique and aspirin, use of, attempts to reduce arterial thrombosis after cardiac catheterization in children (Freed, Rosenthal, and Fyler), 283
Pericarditis complicating acute myocardial infarction, incidence of complications and significance of electrocardiogram on admission (Lichstein, Liu, and Gupta), 246
Phase-plane cardiogram, preliminary findings on healthy population (Colton et al.), 619
Phonocardiography, prevalence of fourth heart sound by, in absence of cardiac disease (Spodick and Quarry), 11
Physicians and medical electronic equipment, critical review of modus operandi (Rios and Shaffer), 397 (Annotation)
Pigs, severe stress cardiopathy in, 451 (Johansson et al.)
Plasma, immunological identification in, of mitochondrial and cytoplasmic aspartate transaminase isoenzymes during experimental myocardial infarction (Calva et al.), 614
uric acid and body weight (Scott and Nicholls), 672 (Annotation)
viscosity and hematocrit variations in myocardial ischemia, potential significance of (Gordon et al.), 175
Platelets, heparin and (Eika), 142 (Letter to Editor)
Reply (O'Brien), 142
Plethysmography, mutual electrical impedance, blood-flow indices in amputee and control limbs by (Nyboer, Murray, and Sedensky), 704
Polysaturates, potential toxicity of excessive (Baldwin), 802 (Letter to the Editor)
Reply, Pinckney, 802
Pre-excitation syndrome, type B, disappearance of right bundle branch block with left anterior hemiblock when associated with (Sobrino et al.), 497
Preinfarction syndrome, propranolol vs. saphenous vein graft bypass for impending infarction (Master and Jaffe), 321
Pressure, central venous, estimation of, by examination of jugular veins (Davison and Cannon), 279
Primate, ectopic atrial rhythms in (Klein et al.), 750
Prinzmetal's variant angina, clinical and electrocardiographic study (Bodenheimer et al.), 304
Propranolol vs. saphenous vein graft bypass for impending infarction, preinfarction syndrome (Master and Jaffe), 321
Prosthetic valve insertion, penicillium endocarditis following open-heart surgery and (Hall), 501
Pseudodysfunction, pacemaker, with coronary sinus pacemaker (Bowman and Carter), 507
Pulmonary artery obstruction, acute, effect of, on dog electrocardiogram (Rasmussen and Michelsen), 209
veins at atrial junctions, congenital obstruction of (Mortensson and Lundström) 359
Pulse waves, arterial, and velocity and systolic time intervals in diabetic children (Pillsbury et al.), 783
Pulsus alternans, systolic and diastolic time intervals in, significance of alternating isovolumic relaxation (Spodick, Khan, and Quarry), 5
P-wave changes on exercise in patients with isolated mitral stenosis (Yokayama et al.), 15

Q

QRS complexes, electrocardiographic changes in pulmonary emphysema, effects of experimentally induced over-inflation of lungs on (Toyama et al.), 606
Quinidine, electrophysiological effects of intramuscular, on atrioventricular conducting system in man (Josephson et al.), 55

R

Relaxation, alternating isovolumic, systolic and diastolic time intervals in pulsus alternans, significance of (Spodick, Khan, and Quarry), 5
Renal and hemodynamic effects, dose-related, of dopamine in congestive heart failure (Beregovich et al.), 550
function studies in hyponatremic cardiac patients with edema (dilution syndrome) (Nitter-Hauge, Brodwall, and Rootwelt), 33
Rhythms, ectopic atrial, in primate (Klein et al.), 750

S

Saphenous vein bypass function, aortocoronary, assessment of, utilizing selective indicator dilution curves (Benchimol, Desser, and Schumacher), 350
surgery, aortocoronary, incidence and clinical significance of ECG-VCG changes of myocardial infarction following (Schrank, Slabaugh, and Beckwith), 46
graft bypass for impending infarction, preinfarction syndrome, propranolol vs. (Master and Jaffe), 321
Semilunar valve stenosis, congenital, depression of cardiac output by sedation in (Hawker and Krovetz), 138 (Annotation)
Septal wall motion, interventricular, and thickness, a study in health and disease, echocardiographic (Sawaya, Longo, and Schlant), 681
Septum, interatrial, abnormal atrial activity in lipomatous hypertrophy of (Erhardt), 571
Serum enzyme changes following cardiac catheterization and coronary angiography, interpretation of (Chahine et al.), 170
epinephrine and corticoids, smoking and cardiovascular disease, effects of nicotine on (Hill and Wynder), 491
Shock, cardiopulmonary volumes and blood volume expansion in experimental acute myocardial infarction with and without (Weisse), 88
Sinoatrial block, first-degree, in man, simple, rapid method for diagnosis of (Bigger), 731

Sinus pacemaker, coronary, pacemaker pseudodysfunction with (Bowman and Carter), 507
rhythm, return to, after atrial fibrillation (Hultgren and Rytand), 806 (Letter to the Editor)
Reply, Zimmerman, Basta, and January, 807
tachycardia, effect of, on phases of left ventricular systole during acute myocardial infarction in man (Talano and Ronan), 428
Smoking and cardiovascular disease, effect of nicotine on serum epinephrine and corticoids (Hill and Wynder), 491
effect of, on blood pressure (Seltzer), 558
Sodium nitroprusside, systemic and coronary hemodynamic effects of (Rowe and Henderson), 83
Stenosis, mitral, p-wave changes on exercise in patients with isolated (Yokoyama et al.), 15
semilunar valve, congenital, depression of cardiac output by sedation in (Hawker and Krovetz), 138 (Annotation)
Stimulation, mesencephalic, effect of acute hypoxia on cardiac dysrhythmias induced by (Mauck et al.), 197
Stress cardiopathy in pigs, severe, 451 (Johansson et al.)
testing, evaluation of isoproterenol as method of (Combs and Martin), 711
Strokes, management of patients with (Burch), 669 (Annotation)
Subendocardial underperfusion during acute aorticopulmonary shunting in anesthetized dogs (Fixler, Saunders, and Sugg), 483
Submaximal and maximal exercise in man, systolic time intervals during (Maher), 334
Surgery, open-heart, and prosthetic valve insertion, penicillium endocarditis following (Hall), 501
vectorcardiographic changes following coronary artery bypass (Anderson, Brundage, and Cheitlin), 421
Syndrome, pre-excitation, type B, disappearance of right bundle branch block with left anterior hemiblock when associated with (Sobrino et al.), 497
preinfarction, propranolol vs. saphenous vein graft bypass for impending infarction (Master and Jaffe), 321
Wolff-Parkinson-White, alternating Type A and Type B (Josephson, Caracta, and Lau), 363
Systole, left ventricular, during acute myocardial infarction in man, effect of sinus tachycardia on phases of (Talano and Ronan), 428
Systolic time intervals during submaximal and maximal exercise in man (Maher et al.), 334
noninvasive screening by, cardiac dysfunction in unselected chronic alcoholic patients (Zambrano et al.), 318

T

Tachyarrhythmias, ventricular, aneurysmectomy for (Neufeld, Schlesinger, and Lieberman), 536 (Letter to Editor)
Reply (Welch), 536
Tachycardia, effect of sinus, on phases of left ventricular systole during acute myocardial infarction in man, (Talano and Ronan), 428
refractory paroxysmal supraventricular, treatment with patient controlled permanent radio frequency atrial pacemaker (Fruehan et al.), 229
ventricular, familial, paroxysmal, in two sisters (Sacks et al.), 217
selective coronary arteriography during permanent (Haïat, et al.), 800
Temperature chart analysis in the diagnosis of deep-vein thrombosis (Faris), 259 (Annotation)
Thinking, of (Burch), 531 (Annotation)
Thromboembolism and oral contraceptives (Nefzger), 536 (Letter to Editor)
Reply (Hougie), 537
Thrombosis, arterial, after cardiac catheterization in children, attempts to reduce use of percutaneous technique and aspirin (Freed, Rosenthal, and Fyler), 283
Thrombosis—Cont'd
atherosclerosis, and endothelium (Spaet, Gaynor, and Stemerman), 661
coronary, morphology of acute myocardial infarction in relation to (Baroldi et al.), 65
deep-vein, temperature chart analysis in diagnosis of (Faris), 259 (Annotation)
venous, small doses of subcutaneous heparin in preventing postoperative (Nicolaides et al.), 261 (Annotation)
innominate venous, rare complication of transvenous pacemaker electrodes (Sethi, Bhayana, and Scott), 770
Time intervals, systolic and diastolic, in pulsus alternans, significance of alternating isovolumic relaxation (Spodick, Khan, and Quarry), 5
arterial pulse waves and velocity and, in diabetic children (Pillsbury et al.), 783
during submaximal and maximal exercise in man (Maher), 334
noninvasive screening by, cardiac dysfunction in unselected chronic alcoholic patients (Zambrano et al.), 318
Toxic agents, cardiovascular disease, and polluted home (Burch), 679
Transvenous endomyocardial biopsy using the gastrointestinal biopsy (Olympus GFB) catheter (Ali), 294
pacemaker electrodes, innominate venous thrombosis, rare complication of (Sethi, Bhayana, and Scott), 770
Treadmill, exercise, protocol, prediction of maximal oxygen consumption from continuous (Froelicher and Lancaster), 445
Tricuspid pouch in endocardial cushion defect (Kudo et al.), 544

U

Underperfusion, subendocardial, during acute aorticopulmonary shunting in anesthetized dogs (Fixler, Saunders, and Sugg), 483
Uric acid, plasma, and body weight (Scott and Nicholls), 672 (Annotation)
U-wave alternans, an electrocardiographic sign of left ventricular failure (Eyer), 41

V

Valve anuli, prosthetic, calcification of, late complication of cardiac valve replacement (Bulkley, Morrow, and Roberts), 129
insertion, prosthetic, penicillium endocarditis following open-heart surgery and (Hall), 501
replacement, late complication of cardiac, calcification of prosthetic valve anuli (Bulkley, Morrow, and Roberts), 129
right atrioventricular, overriding, in association with mitral atresia (Rosenquist), 26
Vectorcardiogram in Friedreich's ataxia (Gregorini, Valentini, and Libretti), 158
Vectorcardiographic changes following coronary artery bypass surgery (Anderson, Brundage, and Cheitlin), 421
Vectorcardiography, data, prediction of hemodynamic data in atrial septal defects of secundum type from simple and combined (Rasmussen), 413
Veins, jugular, estimation of central venous pressure by examination of (Davison and Cannon), 279
Velocity, arterial pulse waves and systolic time intervals in diabetic children, and (Pillsbury et al.), 783
Venous thrombosis, innominate, rare complication of transvenous pacemaker electrodes (Sethi, Bhayana, and Scott), 770
Ventricle, left, congenital diverticulum of (Galioto et al.), 109
Ventricular failure, left, u-wave alternans, an electrocardiographic sign of (Eyer), 41
gradient, localized, of papillary muscles (Burch and Cronvich), 327

Ventricular—Cont'd
premature beats on idioventricular pacemaker activity, effect of (Goel, Han, and Rogers), 183
septal defect associated with aortic insufficiency, medical and surgical management (Chung and Manning), 435
tachyarrhythmias, aneurysmectomy for (Neufeld, Schlesinger, and Lieberman), 536 (Letter to Editor)
tachycardia, familial paroxysmal, in two sisters (Sacks et al.), 217
selective coronary angiography during permanent, in (Haïat), 800
wall, left, motion and changes in wall thickness, videotechnique for recording continuously (Schelbert et al.), 597
Vessels, coronary collateral, clinical and hemodynamic evaluation of, in coronary artery disease (Lavine et al.), 343
Videotechnique for recording continuously left ventricular wall motion and changes in wall thickness (Schelbert et al.), 597
Viruses and arteriosclerosis (Burch), 407
Viscosity, plasma, and hematocrit variations in myocardial ischemia, potential significance of (Gordon et al.), 175

W

Wolff-Parkinson-White syndrome, alternating Type A and Type B (Josephson, Caracta, and Lau), 363
manifestation of, after myocardial infarction (Goel and Han), 633

American Heart Journal

An international publication for the study of the circulation

Subject index*

A

Acetylcholine, effect of, on ventricular arrhythmias, (Basu), 532 (Letter to Editor)
Adhesive closure, tissue, of aortic-pulmonary communications (Zuberbuhler et al.), 41
Aging process, fundamental aspects of, (Burch), 122 (Annotation)
Amines, sympathomimetic, mechanism of inhibition by cocaine of action of indirectly acting (Paton), 129
Aneurysms, ventricular-septal, natural history of ventricular-septal defects associated with (Lambert et al.), 566
Angina pectoris, postoperative recurrence of, after aortocoronary venous graft bypass (Benchimol et al.), 11
  treatment of, with alphamethyldopa (Frederiksen, Cheitlin, and Ferguson), 47
  silent, and coronary bypass surgery (Burch), 530
Angiocardiography, an indication for, ventricular tachycardia in child (Caldwell et al.), 777
Announcements, 132, 264, 394, 538, 680, 816
Anti-arrhythmic drug interaction, electrolyte and, (Dreifus, de Azevedo, and Watanabe), 95
  effects of lidocaine metabolites (Burney et al.), 765
Aortic-pulmonary communications, tissue adhesive closure of (Zuberbuhler et al.), 41
  regurgitation, vectorcardiographic comparison of left ventricular hypertrophy in idiopathic hypertrophic subaortic stenosis, aortic stenosis, and (Brackbill and Shah), 269
  valve disease, surgery for (Galyean, Suzuki, and Blake), 683 (Editorial)
    replacement: one-year results with Lillehei-Kaster and Björk-Shiley disc prostheses, (Nitter-Hauge et al.), 23
    stenosed, new technique for retrograde catheterization of (Arnold, Fraser, Nocero), 128
Aortocoronary bypass surgery, experience with 392 consecutive patients, complete and incomplete revascularization at (McNeer et al.), 176
    left ventricular hemodynamics and contractile pattern after, factors affecting reversibility of abnormal left ventricular function (Hamby et al.), 149
  venous graft bypass, postoperative recurrence of angina pectoris after, (Benchimol et al.), 11
Apexcardiography, systolic time intervals, and echocardiography, comparison of relative value of noninvasive techniques in diagnosis of primary myocardial disease (McDonald and Hobson), 454
Arrhythmia, atrial, conduction defects in experimental (Montgomery and Dresel), 191
  cardiac, electrophysiology and pharmacology of, cellular electrophysiology of mammalian heart (Rosen, Wit, and Hoffman), 380
Arrhythmia, cardiac—Cont'd
    relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias, automaticity (Wit, Rosen, and Hoffman), 515
    relationship of normal and abnormal electrical activity of cardiac fibers to genesis of arrhythmias, re-entry, (Wit, Rosen, and Hoffman), 664
    relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias, re-entry, section II (Wit, Rosen, and Hoffman), 798
  catecholamines, cigarette smoking, and acute myocardial infarction (Lewis and Boudoulas), 526
  catheter-induced (Voukydis and Cohen), 588
  value of Holter technique in (Bleifer, Bleifer, and Karpman), 532 (Letter to Editor)
  ventricular, Doppler measurement of phasic continuous left ventricular blood flow velocity during (Benchimol, Desser, and Wang), 742
    effect of acetylcholine on (Basu), 532 (Letter to Editor)
Arterial disease, cause of (Steier), 677 (Letter to Editor) Reply, 677
  supply to lungs, assessment of, in pseudotruncus arteriosus and truncus arteriosus Type IV in relation to surgical repair, (Chesler, Matisonn, and Beck), 542
Arteriography, coronary, fatal thromboembolism during (Becker et al.), 528
    natural history study of prognostic role of (Brymer et al.), 139
    reduced patient risk using a new technique (Placik and Miller), 525
Asynergy, ventricular, relationship between regional, and anatomic lesion in coronary artery disease (Lewis, Bakst, and Gotsman), 211
Atresia, tricuspid, with l-transposition (Tandon et el.), 417
Atrial arrhythmia, conduction defects in experimental (Montgomery and Dresel), 191
  gallop (S_4), left ventricular function during isometric exercise (handgrip): significance of (Matthews et al.), 686
  myxoma, Coxsackie B_4 viruses and (Burch, Shewey, and Harb), 634
  response during ventricular fibrillation (Damato et al.), 601
  sound, left, some aspects of (Bethell and Nixon), 388
  tachycardia, benign repetitive multifocal ectopic, response to intracardiac atrial stimulation (D'Cruz et al.), 671
  tumor, left, echocardiographic features of experimental (Bodenheimer et al.), 615
  vectorcardiogram, Frank scalar, in normal children (Ferrer and Ellison), 467

*July, pp. 1-132; August, pp. 133-264; September, pp. 265-394; October, pp. 395-538; November, pp. 539-680; December, pp. 681-834.

Atrioventricular block, experimental, by cutting the bundle branches (Rossi), 534 (Letter to Editor)
A-V block, accelerated A-V conduction associated with complete (Krishnaswami and Geraci), 463
conduction, accelerated, associated with complete A-V block (Krishnaswami and Geraci), 463
junction, dual function of, (Pick and Langendorf), 790
valve, atresia of left, single primitive ventricle with D-transposition of the great vessels and (Cabrera, Azcuna, and Bilbao), 225

B

Balke protocol, value of (Bruce), 533 (Letter to Editor)
Ballistocardiogram in ischemic heart disease, prognostic significance of (Lynn and Wolf), 277
Björk-Shiley and Lillehei-Kaster disc prosthesis, aortic valve replacement: one-year results with, (Nitter-Hauge et al.), 23
Block, A-V, accelerated A-V conduction associated with complete (Krishnaswami and Geraci), 463
experimental atrioventricular, by cutting the bundle branches (Rossi), 534 (Letter to Editor)
Blood flow, left ventricular, velocity during ventricular arrhythmias, Doppler measurement of phasic continuous (Benchimol, Desser, and Wang), 742
levels of lidocaine following subcutaneous administration prior to cardiac catheterization (Schwartz et al.), 721
lipids and obesity, relative roles of diet and physical activity on (Schaefer) 673
pressure in dogs, effects of hemodialysis-induced hypokalemia and hypomagnesemia on (Hoppe and Emerson), 198
vessels, action of vitamin C on (Spittle), 387 (Annotation)
Books received, 132, 393, 537, 680, 816
Book reviews, 130, 263, 392, 536, 679, 815
Bundle branch block, left, exercise testing in, diagnostic contributions of (Cooksey, Parker, and Bahl), 482
Bypass, aortocoronary venous graft, postoperative recurrence of angina pectoris after, (Benchimol et al.), 11
cardiopulmonary, recognition of myocardial infarction after cardiac surgery and its relation to, (Ghani, Parker, and Smith), 18

C

Canine ventricles, defibrillation of, following myocardial infarction, electrical threshold for (Tacker et al.), 476
Cardiac arrhythmias, electrophysiology and pharmacology of, relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias, automaticity (Wit, Rosen, and Hoffman), 515
relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias, re-entry, section II (Wit, Rosen, and Hoffman), 798
catheterization, blood levels of lidocaine following subcutaneous administration prior to (Schwartz et al.), 721
Cardiac catheterization—Cont'd
venospasm during (Morgan and Glasser), 813 (Letter to Editor)
murmurs and endocardial fibrosis associated with methysergide therapy (Bana et al.), 640
pacers, prosthetic, in community hospitals, a physician's experience (Kahn), 656
surgery and its relation to cardiopulmonary bypass, recognition of myocardial infarction after, (Ghani, Parker, and Smith), 18
under profound hypothermia, with circulatory arrest and limited cardiopulmonary bypass, serum enzymes after (Neutze, Drakeley, and Barratt-Boyes), 553
using cardiopulmonary bypass, serum enzymes after (Neutze et al.), 425
sympathectomy, bilateral, experimental coronary artery ligation in conscious dogs six months after (Fowlis et al.), 748
tamponade, report of case after insertion of transvenous endocardial electrode, (Kalloor), 88
therapy, appraisal of digoxin bioavailability and pharmacokinetics in relation to (Wagner), 133
Cardioadrenergic factor in essential hypertension (Ibrahim et al.), 724
Cardiomyopathy, obstructive (Shakibi), 127 (Letter to the Editor)
Reply, 127
Cardiopulmonary bypass, recognition of myocardial infarction after cardiac surgery and its relation to, (Ghani, Parker, and Smith), 18
limited, serum enzymes after cardiac surgery under profound hypothermia with circulatory arrest and (Neutze, Drakeley, and Barratt-Boyes), 553
surgery using (Neutze et al.), 425
Cardiovascular disease and smoking (Aravanis), 678 (Letter to Editor)
Reply, 678
Carotid sinus pressure in re-entrant paroxysmal supraventricular tachycardia, effects of (Josephson et al.), 694
Catecholamines, cigarette smoking, arrhythmias and acute myocardial infarction (Lewis and Boudoulas), 526 (Annotation)
Catheter, pacing, with improved sensing and safety characteristics, new temporary (Preston), 289
Catheterization, cardiac, blood levels of lidocaine following subcutaneous administration prior to (Schwartz et al.), 721
venospasm during (Morgan and Glasser), 813 (Letter to Editor)
retrograde, new technique for, of stenosed aortic valve, (Arnold, Fraser, and Nocero), 128
Cigarette smoking, catecholamines, arrhythmias, and acute myocardial infarction (Lewis and Boudoulas), 526
Cinearteriography, coronary, left ventricular pressures during human (Madias and Cohen), 304
Circulatory arrest, serum enzymes after cardiac surgery under profound hypothermia, and limited cardiopulmonary bypass, with (Neutze, Drakeley, and Barratt-Boyes), 553

Clinical pathologic conference (Dainauskas, Susmano, and Bogdonoff), 229
(Coon et al.), 496
(Whitfield et al.), 782
Closure, tissue adhesive, of aortic-pulmonary communications (Zuberbuhler et al.), 41
Cocaine, mechanism of inhibition by, of action of indirectly acting sympathomimetic amines, (Paton), 128
Coffee and myocardial infarction (Maugh), 672 (Annotation)
Conduction, A-V, accelerated, associated with complete A-V block (Krishnaswami and Geraci), 463
system examination in case of spontaneous heart block in dog (Bharati et al.), 596
Coronary arteriography, fatal thromboembolism during (Becker et al.), 528
reduced patient risk using a new technique (Placik and Miller), 525
artery disease, myocardial infarction without obstructive (Brest et al.), 219
relationship between regional ventricular asynergy and anatomic lesion in (Lewis, Bakst, and Gotsman), 211
reproducibility of angiographic left ventricular ejection fraction in patients with (Cohn et al.), 713
ventricular function curves from cardiac response to angiographic contrast, a sensitive detector of ventricular dysfunction in (Brundage and Cheitlin), 281
ligation, experimental, in conscious dogs six months after bilateral cardiac sympathectomy (Fowlis et al.), 748
surgery, social context of (Kotch), 258 (Annotation)
bypass surgery and silent angina (Burch), 530
flow in man, effect of nitroglycerin and papaverine on, (Barner, Kaiser, and Willman), 13
occlusion, effect of pentaerythritol tetranitrate pretreatment on experimental (Meester and Van Harn), 330
sinus pacemaker problems (Dreifus), 676
Cor pulmonale, acute respiratory insufficiency and, pathophysiology, clinical features, and management Part I. Pathophysiology and clinical features, (Koerner and Malovany), 115
Pathophysiology, clinical features, and management. Part II. Management (Malovany and Koerner), 251
Coxsackie B_4 viruses and atrial myxoma (Burch, Shewey, and Harb), 634
Group B virus and primary myocardial disease in infants and children (Ayuthya, Jayavasu, and Pongpanich), 311
Curarized patients in shock-trauma unit, effects of human contact on heart activity of (Lynch et al.), 160

D

Defecation and micturition, direct arterial pressure, pulse rate, and electrocardiogram during, in unrestricted man (Littler, Honour, and Sleight), 205
Defibrillation of canine ventricles following myocardial infarction, electrical threshold for (Tacker et al.), 476
Diagnosis and treatment—past and present (Burch), 390 (Annotation)
Diastolic restriction syndrome, right ventricular, contribution of intracavitary electrocardiography to differential diagnosis of (Maia et al.), 401
Digitalis intoxication, effectiveness of magnesium chloride in treatment of tachyarrhythmias due to (Ghani and Smith), 621
Digoxin, appraisal of, bioavailability and pharmacokinetics in relation to cardiac therapy (Wagner), 133
tritiated, tissue distribution in experimental myocardial infarction (Thompson, et al.), 319
Disc prosthesis, aortic valve replacement: one-year results with Lillehei-Kaster and Björk-Shiley, (Nitter-Hauge et al.), 23
Disease, trends in incidence of, in United States (Burch), 807 (Annotation)
Diuretic therapy, dietary potassium and, (Bateson), 124 (Annotation)
Dogs, blood pressure in, effects of hemodialysis-induced hypokalemia and hypomagnesemia on (Hoppe and Emerson), 198
conscious, experimental coronary artery ligation in, six months after bilateral cardiac sympathectomy (Fowlis), 748
intact, conscious, myocardial alterations following hypothalamic stimulation in (Hall et al.), 770
Doppler measurement of phasic continuous left ventricular blood flow velocity during ventricular arrhythmias (Benchimol, Desser, and Wang), 742
Drug addicts, *Pseudomonas aeruginosa* endocarditis in (Archer, Fekety, and Supena), 570
Dysrhythmias after acute myocardial infarction, comparison of ventricular parasystole with other (Baxter and McGuinness), 443

E

Ebstein's anomaly of tricuspid valve, historical landmarks (Sekelj and Benfey), 108
Echocardiogram, conventional, noninvasive preoperative diagnosis of; cor triatriatum with ultrasonocardiotomogram and (Nimura et al.), 240
Echocardiographic features of experimental left atrial tumor (Bodenheimer et al.), 615
Echocardiography, systolic time intervals, and apexcardiography, comparison of relative value of noninvasive techniques, in diagnosis of primary myocardial disease (McDonald and Hobson), 454
E-electrode, effect of, position on Frank vectorcardiogram in children (Guller, Reeves, and Smith), 449
Electrocardiogram and vectorcardiogram, Frank, day-to-day variation of, in heart disease (Kini, Ginefra, and Pipberger), 698
hyperkalemia, cardiac conduction, and, a review (Ettinger, Regan, and Oldewurtel), 360
Electrocardiographic changes in Panamanian *Rattus rattus* naturally infected by *Trypanosoma cruzi* (Blandon et al.), 758
Electrocardiography, ambulatory long-term, the LCG (Stein), 37

Electrocardiography—Cont'd
intracavitary, contribution of, to differential diagnosis of right ventricular diastolic restriction syndrome (Maia et al.), 401
Electrolyte and antiarrhythmic drug interaction, (Dreifus, de Azevedo, and Watanabe), 95
Electrophysiology and pharmacology of cardiac arrhythmias II. Relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias A. Automaticity (Wit, Rosen, and Hoffman), 515
II. Relationship of normal and abnormal electrical activity of cardiac fibers to genesis of arrhythmias B. Re-entry (Wit, Rosen, and Hoffman), 664
relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias, re-entry, section II (Wit, Rosen, and Hoffman) 798
cellular, of mammalian heart I. Electrophysiology and pharmacology of cardiac arrhythmias (Rosen, Wit, and Hoffman), 380
of propranolol in man (Seides et al.), 733
Endocardial cushion defect, evaluation of mitral regurgitation in, by selective left ventriculography with reference to surgical intervention on mitral valvular cleft (Okamura et al.), 579
fibroelastosis, etiologic and pathogenetic considerations in children (Schryer and Karnauchow), 557
fibrosis, cardiac murmurs and, associated with methysergide therapy (Bana et al.), 640
Endocarditis, infective, in patients over age 60, (Dreifus, de Azevedo, and Watanabe), 90
Pseudomonas aeruginosa, in drug addicts (Archer, Fekety, and Supena), 570
Endomyocardial fibrosis, hemodynamics in (Guimarães et al.), 294
Enzyme changes, serum, in acute myocardial infarction, fever in patients in relation to (Woodhead), 813 (Letter to Editor)
serum, after cardiac surgery under profound hypothermia with circulatory arrest and limited cardiopulmonary bypass (Neutze, Drakeley, and Barratt-Boyes), 553
using cardiopulmonary bypass (Neutze et al.), 425
Epicardial mapping and surgical treatment in Wolff-Parkinson-White syndrome Type A, (Wellens et al.), 69
Exercise testing in left bundle branch block, diagnostic contributions of (Cooksey, Parker, and Bahl), 482
training, the myocardium, and ischemic heart disease (Opie) 539

F

Fascicle, anterior, electrocardiographic and clinical observations of recurrent tachyarrhythmia arising from pacemaker within distribution of (Goolsby and Oliva), 351
Fever in relation to serum enzyme changes in acute myocardial infarction (Woodhead), 813 (Letter to Editor)
Fibrillation, ventricular, atrial response during (Damato et al.), 601
Fibrinogen, possible use of ^{125}I-labeled for detection of mural thrombosis following myocardial infarction (Warlow and Terry), 315
Fibroelastosis, endocardial, etiologic and pathogenetic considerations in children (Schryer and Karnauchow), 557
Fibrosis, endocardial, cardiac murmurs and, associated with methysergide therapy (Bana et al.), 640
endomyocardial, hemodynamics in (Guimarães et al.), 294
Fourth sound, significance of, (Wayne), 126 (Letter to the Editor)
Reply, 126
Frank electrocardiogram and vectorcardiogram, day-to-day variation, in heart disease (Kini, Ginefra, and Pipberger), 698
scalar atrial vectorcardiogram in normal children (Ferrer and Ellison), 467
vectorcardiogram in children, effect of E-electrode position on (Guller, Reeves, and Smith), 449

H

Heart activity, effects of human contact on, in curarized patients in shock-trauma unit (Lynch et al.), 160
block, spontaneous, in dog, conduction system in examination in case of (Bharati et al.), 596
disease, day-to-day variation of the Frank electrocardiogram and vectorcardiogram in (Kini, Ginefra, and Pipberger), 698
ischemic, new etiologies for (Knox) 809 (Annotation)
prognostic significance of ballistocardiogram in (Lynn and Wolf), 277
mammalian, cellular electrophysiology of I. Electrophysiology and pharmacology of cardiac arrhythmias (Rosen, Wit, and Hoffman), 380
sounds, first and second, changing views on mechanisms of (Luisada et al.), 503
Hemodialysis hazard, hepatitis as (Pattison), 386
Hemodynamics, left ventricular, and contractile pattern after aortocoronary bypass surgery, factors affecting reversibility of abnormal left ventricular function (Hamby et al.), 149
Hemoptysis caused by pulmonary venous obstruction (Bernstein), 262 (Letter to Editor)
Hepatitis as hemodialysis hazard (Pattison), 386
Holter technique in arrhythmias, value of (Bleifer, Bleifer, and Karpman), 532 (Letter to Editor)
Hospital routine and heart patient, (Burch), 674 (Annotation)
Hyperkalemia, cardiac conduction, and the electrocardiogram, a review (Ettinger, Regan, and Oldewurtel), 360
Hypertension, essential, cardioadrenergic factor in (Ibrahim et al.), 724
malignant (Finnerty), 265
Hypertrophy, left ventricular, in idiopathic hypertrophic subaortic stenosis, aortic stenosis, and aortic regurgitation, vectorcardiographic comparison of (Brackbill and Shah), 269
Hypokalemia and hypomagnesemia, effects of hemodialysis-induced, on blood pressure in dogs (Hoppe and Emerson), 198
Hypomagnesemia and hypokalemia, effects of hemodialysis-induced, on blood pressure in dogs (Hoppe and Emerson), 198
Hypotension, orthostatic, propranolol in the treatment of orthostatic tachycardia associated with (Miller, Cohen, and Glick), 493

Hypothalamic stimulation in intact conscious dog, myocardial alterations following (Hall et al.), 770
Hypothermia, profound, with circulatory arrest and limited cardiopulmonary bypass, serum enzymes after cardiac surgery under (Neutze, Drakeley, and Barratt-Boyes), 553

I

Incompetence, tricuspid, left parasternal lift in (Armstrong and Gotsman), 183
Infarction, myocardial, accelerated repolarization as factor in re-entry—simulation of electrophysiology of acute, (Geddes et al.), 61
acute, catecholamines, cigarette smoking, and arrhythmias (Lewis and Boudoulas), 526 (Annotation)
comparison of ventricular parasystole with other dysrhythmias after (Baxter and McGuinness), 443
use of phentolamine in (Gould et al.), 144
after propranolol withdrawal (Diaz et al.), 257 (Annotation)
coffee and (Maugh), 672 (Annotation)
diagnostic value of Q-waves in (Shettigar et al.), 170
direct posterior, and normal variation, anteriorly oriented horizontal vector loop, problem of distinction between (Ha, Kraft, and Stein), 408
effect of exercise on, in young vs. old male rats, electrocardiograph changes (Wexler and Greenberg), 343
electrical threshold for defibrillation of canine ventricles following (Tacker et al.), 476
experimental, tissue distribution in, tritiated digoxin (Thompson et al.), 319
fever in relation to serum enzyme changes in acute (Woodhead), 813 (Letter to Editor)
pilot study of streptokinase therapy in, observations on complications and relation to trial design (Ness et al.), 705
possible use of ^{125}I-labeled fibrinogen for detection of mural thrombosis following (Warlow and Terry), 315
recognition of, after cardiac surgery and its relation to cardiopulmonary bypass, (Ghani, Parker, and Smith), 18
Intracavitary electrocardiography, contribution of, to differential diagnosis of right ventricular diastolic restriction syndrome (Maia et al.), 401
Ischemic heart disease, exercise training, and myocardium (Opie), 539
new etiologies for (Knox), 809 (Annotation)
Isometric exercise, analysis of left ventricular response to (Quinones et al.), 29
(handgrip): significance of an atrial gallop (S4), left ventricular function during (Matthews et al.), 686

J

Jugular contour nomenclature and recognition, X-prime descent in (Constant), 372
Junction, A-V, dual function of (Pick and Langendorf), 790

K

Kidney, senile, the (Burch), 259 (Annotation)

L

Lenègre's disease in a young adult (Dhingra et al.), 487
Lidocaine, blood levels of, following subcutaneous administration prior to cardiac catheterization (Schwartz et al.), 721
effect of, on gating mechanism (Geddes, Webb, and Adgey), 260 (Letter to Editor)
Reply, 261
metabolites, anti-arrhythmic effects of (Burney et al.), 765
Ligation, coronary artery, experimental, in conscious dogs six months after bilateral cardiac sympathectomy (Fowlis et al.), 748
Lillehei-Kaster and Björk-Shiley disc prosthesis, aortic valve replacement: one-year results with, (Nitter-Hauge et al.), 23
Lungs, assessment of arterial supply to, in pseudotruncus arteriosus and truncus arteriosus Type IV in relation to surgical repair (Chesler, Matisonn, and Beck), 542
Lupus erythematosus, systemic, viruses and, (Phillips), 120 (Annotation)

M

Magnesium chloride, effectiveness of, in treatment of ventricular tachyarrhythmias due to digitalis intoxication (Ghani and Smith), 621
Medications, precatheterization, direct myocardial effects of (Faulkner, Boerth, and Graham), 609
Metabolites, lidocaine, anti-arrhythmic effects of (Burney et al.), 765
Methyldopa, treatment of angina pectoris with alpha-, (Frederiksen, Cheitlin, and Ferguson), 47
Methysergide therapy, cardiac murmurs and endocardial fibrosis associated with (Bana et al.), 640
Micturition and defecation, direct arterial pressure, pulse rate, and electrocardiogram during, in unrestricted man (Littler, Honour, and Sleight), 205
Mitral regurgitation, evaluation of, in endocardial cushion defect by selective left ventriculography with reference to surgical intervention on mitral valvular cleft (Okamura et al.), 579
valve, opening or closing snap of (Rodbard), 677 (Letter to Editor)
valvular cleft, evaluation of mitral regurgitation in endocardial cushion defect by selective left ventriculography with reference to surgical intervention on (Okamura et al.), 579
Murmurs, cardiac, and endocardial fibrosis associated with methysergide therapy (Bana et al.), 640
systolic heart, associated with idiopathic hypertrophic subaortic stenosis, marked variability of (Bauman), 811 (Annotation)
Myocardial alterations following hypothalamic stimulation in intact conscious dog (Hall et al.), 770
disease, primary, comparison of relative value of noninvasive techniques, echocardiography, systolic time intervals, and apexcardiography, in diagnosis of (McDonald and Hobson), 454
in infants and children, Coxsackie Group B virus and (Ayuthya, Jayavasu, and Pongpanich), 311
effects, direct, of precatheterization medications (Faulkner, Boerth, and Graham), 609
infarction, stimulation of electrophysiology of acute, accelerated repolarization as factor in re-entry (Geddes et al.), 61

Myocardial infarction—Cont'd
acute, catecholamines, arrhythmias, and cigarette smoking (Lewis and Boudoulas), 526
comparison of ventricular parasystole with other dysrhythmias after (Baxter and McGuinness), 443
use of phentolamine in (Gould et al.), 144
after propanolol withdrawal (Diaz, et al.), 257 (Annotation)
and coffee (Maugh), 672 (Annotation)
diagnostic value of Q-waves in, (Shettigar et al.), 170
effect of exercise on, in young vs. old male rats, electrocardiograph changes (Wexler and Greenberg), 343
electrical threshold for defibrillation of canine ventricles following (Tacker et al.), 476
experimental, tissue distribution in, tritiated digoxin (Thompson et al.), 319
fever in relation to serum enzyme changes in acute (Woodhead), 813 (Letter to Editor)
pilot study of streptokinase therapy in, observations on complications and relation to trial design (Ness et al.), 705
possible use of ^{125}I-labeled fibrinogen for detection of mural thrombosis following (Warlow and Terry), 315
posterior, direct, and normal variation, problem of distinction between, anteriorly oriented horizontal vector loop (Ha, Kraft, and Stein), 408
recognition of, after cardiac surgery and its relation to cardiopulmonary bypass, (Ghani, Parker, and Smith), 18
without obstructive coronary artery disease (Brest et al.), 219
Myocardium and ischemic heart disease, exercise training (Opie), 539
Myxoma, atrial, Coxsackie B_4 viruses and (Burch, Shewey, and Harb), 643

N

Neocardiology and paleocardiology, (Carruthers and Taggart), 1
Nitroglycerin and papaverine, effect of, on coronary flow in man, (Barner, Kaiser, and Willman), 13
Notch, systolic, specificity of early (Zitnik), 260
Reply (Becker, Klaus, and Humphries), 260

O

Obesity and blood lipids, relative roles of diet and physical activity on (Schaefer) 673
Occlusion, coronary, experimental, effect of pentaerythritol tetranitrate pretreatment on (Meester and Van Harn), 330

P

Pacemaker, coronary sinus, problems (Dreifus), 676 (Letter to Editor)
Reply, 676
double reset of demand, different explanation of cause, (Richter-von Arnauld et al.), 122 (Annotation)
within the distribution of the anterior fascicle, electrocardiographic and clinical observations of recurrent tachyarrhythmia arising from (Goolsby and Oliva), 351
Pacers, cardiac, prosthetic, in community hospitals, a physician's experience (Kahn), 656
Paleocardiology and neocardiology, (Carruthers and Taggart), 1
Papaverine and nitroglycerin, effect of, on coronary flow in man (Barner, Kaiser, and Willman), 13
Parasternal lift, left, in tricuspid incompetence (Armstrong and Gotsman), 183
Parasystole, ventricular, comparison of, with other dysrhythmias after acute myocardial infarction (Baxter and McGuinness), 443
Pathologic conference, clinical (Coon et al.), 496
(Whitfield et al.), 782
(Dainauskas, Susmano, and Bogdonoff), 229
Penicillin and the control of syphilis (Dunlop), 395
Pentaerythritol tetranitrate, effect of, pretreatment on experimental coronary occlusion (Meester and Van Harn), 330
Pharmacology and electrophysiology of cardiac arrhythmias. II. Relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias. A. Automaticity (Wit, Rosen, and Hoffman), 515
relationship of normal and abnormal electrical activity of cardiac fibers to genesis of arrhythmias. B. Re-entry, section I (Wit, Rosen, and Hoffman), 664
relationship of normal and abnormal electrical activity of cardiac fibers to the genesis of arrhythmias. B. Re-entry, section II (Wit, Rosen, and Hoffman), 798
Phentolamine, use of, in acute myocardial infarction (Gould et al.), 144
Potassium, dietary, and diuretic therapy, (Bateson), 124 (Annotation)
Pre-excitation, case of (Scherf and Bornemann), 627
Propranolol, how dangerous is? (Eriksson), 391 (Letter to Ed)
Reply, 391
in man, electrophysiology of (Seides et al.), 733
in treatment of orthostatic tachycardia associated with orthostatic hypotension (Miller, Cohen, and Glick), 493
withdrawal, myocardial infarction after (Diaz et al.), 257 (Annotation)
Prostaglandins E_1 and E_2, systemic and coronary hemodynamic effects of intracoronary administration of, (Rowe and Afonso), 51
Prosthesis, aortic valve replacement: one-year results with Lillehei-Kaster and Björk-Shiley disc (Nitter-Hauge et al.), 23
Pseudomonas aeruginosa endocarditis in drug addicts (Archer, Fekety, and Supena), 570
Pseudotruncus arteriosus and truncus arteriosus Type IV in relation to surgical repair, assessment of arterial supply to lungs in (Chesler, Matisonn, and Beck), 542
Pulmonary arterial pressure method for estimating the ventricular stroke volume (Cibulski et al.), 338
Pulmonic stenosis, interpretation of RSR', (Ellison and Miettinen), 7
Pulses, double, response of canine heart to, of short duration, simple addition principle. (Schneider, Koning, and Goovaerts), 325

Q

Q-waves, diagnostic value of, in inferior myocardial infarction (Shettigar et al.), 170

R

Radioisotope test, new bedside, for detection of deep-vein thrombosis (Duffy), 256 (Annotation)

Rats, young vs. old male, effect of exercise on myocardial infarction in, electrocardiograph changes (Wexler and Greenberg), 343

Rattus rattus naturally infected by *Trypanosoma cruzi*, electrocardiographic changes in Panamanian (Blandon et al.), 758

Regurgitation, aortic, vectorcardiographic comparison of left ventricular hypertrophy in idiopathic hypertrophic subaortic stenosis, aortic stenosis and (Brackbill and Shah), 269

Respiratory insufficiency, acute, and cor pulmonale: pathophysiology and clinical features and management. I. Pathophysiology and clinical features (Koerner and Malovany), 115

and cor pulmonale: pathophysiology, clinical features, and management. Part II. Management (Malovany and Koerner), 251

Retrograde catheterization, new technique for, of stenosed aortic valve, (Arnold, Fraser, and Nocero), 128

Revascularization, complete and incomplete, at aortocoronary bypass surgery, experience with 392 consecutive patients (McNeer et al.), 176

S

Serum enzymes after cardiac surgery under profound hypothermia with circulatory arrest and limited cardiopulmonary bypass (Neutze, Drakeley, and Barratt-Boyes), 553

using cardiopulmonary bypass (Neutze et al.), 425

changes in acute myocardial infarction, fever in relation to (Woodhead), 813 (Letter to Editor)

triglyceride levels, dietary sucrose and (Roberts), 808 (Annotation)

Shock-trauma unit, effects of human contact on heart activity of curarized patients in (Lynch et al.), 160

Smoking and cardiovascular disease (Aravanis), 678 (Letter to Editor)

Reply, 678

Stenosis, aortic, aortic regurgitation, vectorcardiographic comparison of left ventricular hypertrophy in idiopathic hypertrophic subaortic stenosis and (Brackbill and Shah), 269

familial congenital valvular pulmonic (McCarron and Perloff), 357

pulmonic, interpretation of RSR', (Ellison and Miettinen), 7

subaortic, idiopathic hypertrophic, marked variability of systolic heart murmur associated with (Bauman), 811 (Annotation)

Streptokinase therapy in acute myocardial infarction, pilot study of, observations on complications and relation to trial design (Ness et al.), 705

Stroke volume, ventricular, pulmonary arterial pressure method for estimating (Cibulski et al.), 338

Subaortic stenosis, idiopathic hypertrophic, marked variability of systolic heart murmur associated with (Bauman), 811 (Annotation)

Sucrose and serum triglyceride levels, dietary (Roberts), 808 (Annotation)

Surgery, cardiac, using cardiopulmonary bypass, serum enzymes after (Neutze et al.), 425

Sympathectomy, cardiac, bilateral, experimental coronary artery ligation in conscious dogs six months after (Fowlis et al.), 748

Syndrome, right ventricular diastolic restriction, contribution of intracavitary electrocardiography to differential diagnosis of (Maia et al.), 401

Syphilis, penicillin and the control of (Dunlop), 395

Systolic heart murmur associated with idiopathic hypertrophic subaortic stenosis, marked variability of (Bauman), 811 (Annotation)

notch, specificity of early (Zitnik), 260

Reply (Becker, Klaus, and Humphries), 260

time intervals, echocardiography, and apexcardiography, comparison of relative value of noninvasive techniques, in diagnosis of primary myocardial disease (McDonald and Hobson), 454

T

Tachyarrhythmia, recurrent, arising from a pacemaker within the distribution of the anterior fascicle, electrocardiographic and clinical observations of (Goolsby and Oliva), 351

ventricular, effectiveness of magnesium chloride in treatment of, due to digitalis intoxication (Ghani and Smith), 621

Tachycardia, atrial, benign repetitive multifocal ectopic, response to intracardiac atrial stimulation (D'Cruz et al.), 671 (Annotation)

orthostatic, associated with orthostatic hypotension, propranolol in treatment of (Miller, Cohen, and Glick), 493

paroxysmal supraventricular, re-entrant, carotid sinus pressure in, effects of (Josephson et al.), 694

ventricular, in child, an indication for angiocardiography? (Caldwell et al.), 777

Tamponade, cardiac, report of case after insertion of transvenous endocardial electrode (Kalloor), 88

Therapy, diuretic, dietary potassium and (Bateson), 124 (Annotation)

Threshold, electrical, for defibrillation of canine ventricles following myocardial infarction (Tacker et al.), 476

Thromboembolism, fatal, during coronary arteriography (Becker et al.), 528

Thrombosis, deep-vein, new bedside radioisotope test for detection of (Duffy), 256 (Annotation)

mural, following myocardial infarction, possible use of ^{125}I-labeled fibrinogen for detection of (Warlow and Terry), 315

Tissue adhesive closure of aortic-pulmonary communications (Zuberbuhler et al.), 41

Tricuspid atresia with l-transposition (Tandon et al.), 417

incompetence, left parasternal lift in (Armstrong and Gotsman), 183

valve, historical landmarks, Ebstein's anomaly of (Sekelj and Benfey), 108

Triglyceride, serum, levels, dietary sucrose and (Roberts), 808 (Annotation)
Truncus arteriosus Type IV in relation to surgical repair, assessment of arterial supply to lungs in pseudotruncus arteriosus and (Chesler, Matisonn, and Beck), 542
Trypanosoma cruzi, electrocardiographic changes in Panamanian *Rattus rattus* naturally infected by (Blandon et al.), 758
Tumor, atrial, left, echocardiographic features of experimental (Bodenheimer et al.), 615

U

Ultrasonocardiotomogram and conventional echocardiogram, noninvasive preoperative diagnosis of cor triatriatum with (Nimura et al.), 240

V

Valve, aortic, stenosed, new technique for retrograde catheterization of, (Arnold, Fraser, and Nocero), 128
tricuspid, historical landmarks, Ebstein's anomaly of (Sekelj and Benfey), 108
Valvular cleft, mitral, evaluation of mitral regurgitation in endocardial cushion defect by selective left ventriculography with reference to surgical intervention on (Okamura et al.), 579
Vector loop, anteriorly oriented horizontal, problem of distinction between direct posterior myocardial infarction and normal variation (Ha, Kraft, and Stein), 408
Vectorcardiogram and electrocardiogram, Frank, day-to-day variation, in heart disease (Kini, Ginefra, and Pipberger), 698
continuous recording of, in acutely ill patients (Hodges et al.), 593
Frank, in children, effect of E-electrode position on (Guller, Reeves, and Smith), 449
scalar atrial, in normal children (Ferrer and Ellison), 467
Vectorcardiographic comparison of left ventricular hypertrophy in idiopathic hypertrophic subaortic stenosis, aortic stenosis and aortic regurgitation (Brackbill and Shah), 269
Velocity, left ventricular blood flow, during ventricular arrhythmias, Doppler measurement of phasic continuous (Benchimol, Desser, and Wang), 742
Venospasm during cardiac catheterization (Morgan and Glasser), 813 (Letter to Editor)
Venous obstruction, pulmonary, hemoptysis caused by (Bernstein), 262 (Letter to Editor)
Ventricles, canine, defibrillation of, following myocardial infarction, electrical threshold for (Tacker et al.), 476
single primitive, with D-transposition of the great vessels and atresia of the left A-V valve (Cabrera, Azcuna, and Bilbao), 225
Ventricular arrhythmias, effect of acetylcholine on (Basu), 532 (Letter to Editor)
asynergy, relationship between regional, and anatomic lesion in coronary artery disease, 211 (Lewis, Bakst, and Gotsman), 211
Ventricular—Cont'd
blood flow, left, velocity during ventricular arrhythmias, Doppler measurement of phasic continuous (Benchimol, Desser, and Wang), 742
diastolic restriction syndrome, right, contribution of intracavitary electrocardiography to differential diagnosis of (Maia et al.), 401
ejection fraction, left, in patients with coronary artery disease, reproducibility of angiographic (Cohn et al.), 713
fibrillation, atrial response during (Damato et al.), 601
function, abnormal left, factors affecting reversibility of. left ventricular hemodynamics and contractile pattern after aortocoronary bypass surgery (Hamby et al.), 149
curves from the cardiac response to angiographic contrast, a sensitive detector of ventricular dysfunction in coronary artery disease (Brundage and Cheitlin), 281
left, during isometric exercise (handgrip): significance of an atrial gallop (S_4) (Matthews et al.), 686
parasystole and re-entry, clinical-electrophysiological correlations (Singer et al.), 79
comparison of, with other dysrhythmias after acute myocardial infarction (Baxter and McGuinness), 443
pressures, left, during human coronary cinearteriography (Madias and Cohen), 304
response, left, to isometric exercise, analysis of, (Quinones et al.), 29
septal defects, natural history of, associated with ventricular-septal aneurysms (Lambert et al.), 566
stroke volume, pulmonary arterial pressure method for estimating (Cibulski et al.), 338
tachyarrhythmias, effectiveness of magnesium chloride in treatment of, due to digitalis intoxication (Ghani and Smith), 621
tachycardia in child, an indication for angiocardiography? (Caldwell et al.) 777
Ventriculography, selective left, evaluation of mitral regurgitation in endocardial cushion defect by, with reference to surgical intervention on mitral valvular cleft (Okamura et al.), 579
Vessels, blood, action of vitamin C on (Spittle), 387 (Annotation)
Viruses and systemic lupus erythematosus (Phillips), 120 (Annotation)
Vitamin C, action of, on blood vessels (Spittle), 387 (Annotation)

W

Wolff-Parkinson-White syndrome Type A, epicardial mapping and surgical treatment in (Wellens et al.), 69

X

X-prime descent in jugular contour nomenclature and recognition (Constant), 372
